DAY ONE, FRIDAY

September 20, 2024

7:00am

Shuttle from Hotel to Breakfast

7:45am

Welcome, Faculty Intro, and Announcements

8:00am

Lecture - Nasal Examination, Analysis, & Planning - **Davis**

8:30am

Lecture - Anesthesia, Incision Placement, External Degloving Dissection Planes - **Weiss**

9:00am

Lecture - Septal Dissection, Importance of L-Strut Size & Preservation, Caudal Septal Deviation Repair, L-Strut Straightening - **Wong**

9:45am

Prosection: External Rhinoplasty Exposure: LLC, Septum, ANS. - **Davis**

10:15am

Cadaver Dissection with Faculty: LLC Marking, Complete SubPerichondrial LLC Degloving (footpods to sesamoids), Bilateral Septal Degloving (including ANS, Quad Cart, and Ethmoid/Vomer), & Septal Harvest via the External Approach. Sub-Perichonrial/Sub-Periosteal Wide-Field Dorsal Exposure. (Harvest the Surplus Quadrangular Septum and Retain for Later Use)

12:00pm

Lunch with Faculty

1:00pm

Lecture - Dorsal (Structural) Hump Reduction: Component Cartilage Hump Reduction, Osseous Hump Reduction Options, Piezoelectric Osteotomies, and Middle Vault Reconstruction - **Wong**

2:00pm

Prosection - Dorsal (Structural) Hump Reduction - **Davis**

2:30pm

Cadaver Dissection with Faculty: Dorsal Degloving, Component Cartilage Hump Reduction, Piezo Osseous Hump Reduction, Piezo Osteotomies/Osteoplasty, Middle Vault Reconstruction (Spreaders vs Spreader Flaps)

5:00pm

Tip Aesthetics, The Nasal Valve, and Nasal Base Profile Aesthetics - **Davis**

5:45pm

Faculty Q&A

6:15pm

Adjourn

7:00pm

Bus Ride to Hotel

7:30pm

Bus Ride for Dinner with Faculty

DAY TWO, SATURDAY

September 21, 2024

7:00am	Shuttle from Hotel to Breakfast
7:45am	Welcome, Faculty Intro, and Announcements
8:00am	Lecture – Lateral Crural Tensioning with the Tongue-in-Groove Setback, Septal Extension Graft, and Lateral Crural Steal – Davis
9:00am	Lecture – Septal Extension Graft Design, The Benefits of the Tongue-in-Groove Technique – Davis
9:30am	Lecture – Alar Rim Support with Alar Rim and Articulated Alar Rim Grafts – Wong
10:00am	Lecture - Tip Architecture, Hazards of Cephalic Crural Resection, and Tip Suture Techniques – Weiss
10:30am	Prosection - Tip Tensioning – Davis
10:45am	Cadaver Dissection with Faculty: Tip Tensioning with Contoured SEG, TIG Setback, and Lateral Crural Steal
12:30pm	Lunch with Faculty
1:30pm	Lecture – Peri-Operative Care for Enhanced Outcomes – Davis
2:00pm	Lecture - Dorsal Preservation Rhinoplasty, Pearls for the Beginner – Weiss
3:00pm	Prosection – Dorsal Preservation and Blocking Points
3:30pm	Cadaver Dissection with Faculty: Dealer's Choice - Component or Preservation Hump Reduction
5:30pm	Post-Course Debrief, Group Photo, Certificate of Participation
6:00pm	Adjourn and Farewell / Shuttle to Hotel
